

"A new lifestyle for your lawn"

18-0-14

60% SN

A granular Stabilized Nitrogen fertilizer

Regular particle size

GUARANTEED MINIMUM ANALYSIS

		%
Total Nitrogen	(N)	18.0
Urea Nitrogen*	(N)	17.2
Ammoniacal Nitrogen	(N)	0.8
Soluble Potash	(K ₂ O)	14.0

PRODUCT FEATURES

- 60% of the nitrogen is from stabilized nitrogen. SN contains two inhibitors that reduces nitrogen loss to ammonia volatilization and nitrate leaching.

TURF BENEFITS

- According to research, at least 30 percent of the nitrogen from urea can be lost to the atmosphere through volatilization within days of application.
- Urease inhibitor in combination with the nitrification inhibitor in SN urea significantly increases nitrogen absorption by turf grass to provide uniform growth, deep root mass and consistent colour intensity over 6 to 8 weeks.
- SN performs consistently regardless of soil temperature or weather.
- Potassium improves turf tolerance to disease and temperature stress.

Recommended Application Rates: 1.5 kg/100m² or 3 lb/1000ft²
