Turf Revolution

Phil Bull

This is a testimonial to Phil Bull and his company Turf Revolution.

I'd first like to say that it has been my goal and perhaps mission to have the best looking lawn on my street.

It's not that I'm lazy or unwilling to do the work but I became frustrated with my results, therefore for the past 14 years I've had 2 different lawn service companies looking after my lawn care needs. However, recent changes in fertilizer and weeding from my lawn care company have left me disappointed now as well.

I'm sure at every BNI meeting I ask Phil a question about my lawn care.

Anyway, I purchased the Turf Revolution Soil Test Kit and recently received my results. Wow! The graph, the explanation and the recommendations are much more than I expected. The results provided the theory and the science that I appreciated and now I know how to look after my lawn appropriately on my own and I will have a lawn to be envied.

Thank Phil for the science of lawn care.

Best regards,

Kristin Elliott
